

ADOPTABLE FRIENDS, NFP

# Dog Training Resources

## HOW DO I CHOOSE A DOG TRAINER?

When choosing a trainer for your new dog we recommend you interview the trainer(s) and ask the following questions:

- 1 What will happen to my dog when he does something right?
- 2 What will happen to my dog when he does something wrong?
- 3 What professional organizations are you a member of?
- 4 What tool(s) do you use for training?

Finally, make sure to visit the facility and watch a class or training session before enrolling!

At Adoptable Friends, NFP we strongly believe in modern, science-based dog training. **We do not support the use of prong, shock, or choke collars.** Positive reinforcement training for all dogs is recommended by the American Veterinary Society of Animal Behavior, the American Animal Hospital Association, and the American Veterinary Medical Association.

We are pleased to offer an incentive to work with one of our preferred trainers listed below. After completion of a positive reinforcement training course please send us a copy of your certificate and we will reimburse you \$80.00\*
